**Economic Feasibility Section**

Please answer:

How many people does the company employ today?

How many people will the company employ once the project is complete?

**Market Feasibility Section**

Please answer:

Who are your current and prospective buyers?

Corn Procurement:

- Where does the company purchase corn (draw zone, direct from farmers, from grain elevators or both direct from farmers and grain elevators)?
- Who is responsible for corn procurement? Internally or externally through a partner?
- Is corn trucked or railed to the plant or a combination of both?
- How does seasonality impact the company's corn procurement?

Railroad Infrastructure:

- Does the company require access to a railroad?
- If so, who is the company's rail provider?

Please provide:

The marketing, sales, and distribution plans and strategies for the following (also provide agreement terms if using a marketing/sales partner):

- DCO
- DDGs
- Other co-products, as applicable (e.g., syrup, CO2)

**Management Feasibility Section**

Please provide:

A description of how the company is legally structured

An org chart

A list of board members and one paragraph bios for each

A list of key leadership and one paragraph bios for each

List key strategic partners (such as their bank, any agreements they have with ethanol, DDGS, and DCO marketing and sales partners, their law firms, their accounting firm, etc.) and describe why they are key strategic partners.
